PREFACE

The XXIV INTERNATIONAL YOUNG SCIENTISTS CONFERENCE ON APPLIED PHYSICS (ICAP'2024) will be held May, 21-24, 2024, in the capital of Ukraine Kyiv. The famous scientific and cultural center of Europe welcomes over 75 delegates from different Universities and Scientific Centers of 5 countries of Europe, America and Asia.

The intend of ICAP'2024 is to provide a forum where novel and relevant achievements in Applied Physics (RadioPhysics and Electronics) could be discussed, to bring together young scientists of different disciplines and foster their cooperation, to stimulate international research in the field of Applied Physics, development, fabrication and application of new physical ideas in the corresponding devices. It is too important now for Ukraine as a member of Bologna Process and as well as of European Community.

The ICAP'2024 is organized by Faculty of Radiophysics, Electronics and Computer Systems of Taras Shevchenko National University of Kyiv.

The Conference technical program is divided into nine sessions; four invited lectures and more than 70 oral contributions will be presented, discussed and argued.

We believe the ICAP'2024 will give a chance for students, postgraduate students, young professors and scientists to discuss their problems and give an impulse for the development of future research and success.

We hope the delegates will enjoy the meeting. We hope also the participants and accompanying guests will enjoy visits to local places interests.

The next XXV INTERNATIONAL YOUNG SCIENTISTS CONFERENCE ON APPLIED PHYSICS (ICAP'2025) will be held in Kyiv, in May, 2025.

We will be glad to see you next year.

Sincerely yours,
Chairman of organizing committee of ICAP 2024

Dr. A. Netreba
